GREAT LAKES MEDICAL CENTER – AFFILIATED ONCOLOGISTS

The Great Lakes Medical Center underwent an extensive exterior remodel and interior build-out to accommodate approximately 50,000 square feet of multi-specialty medical clinics.

This renovation aimed to enhance the facility's functionality and aesthetic appeal to better serve patients and medical staff.

The updated facility features a modernized exterior and a welcoming, state-of-the-art interior, designed to provide a comfortable and efficient environment for both patients and healthcare professionals.
