MID-AMERICA ORTHOPAEDICS

The Mid-America Orthopaedics facility underwent an interior remodel of its second-floor exam rooms and waiting area, encompassing a total of approximately 2,200 square feet. The renovation aimed to enhance the functionality and aesthetic appeal of the clinic, ensuring a better experience for both patients and staff.

The remodeled facility features modern and sophisticated design elements, including stylish corridor walls with decorative patterns, updated exam rooms with contemporary finishes, and a welcoming waiting area. The use of warm tones and high-quality materials throughout the clinic creates a comfortable and professional atmosphere.
